Dear Sir/Madam:

# Re: Application to Exclude Land to the Agricultural Land Reserve (ALR)

Please find attached the Minutes of Resolution # 0008/2007 outlining the Commission's decision as it relates to the above noted application. The area that has been excluded from the Agricultural Land Reserve is shown on the attached map and is subject to confirmation of the boundaries upon receipt of a subdivision plan that accurately depicts these areas. Upon receipt of the plans the Commission will authorize the Registrar of Land Titles to accept the application for deposit of the plan.

As reflected in the minutes the Commission is interested in learning more about your existing operations and your plans for the future development of agriculture on the island.

Yours truly,

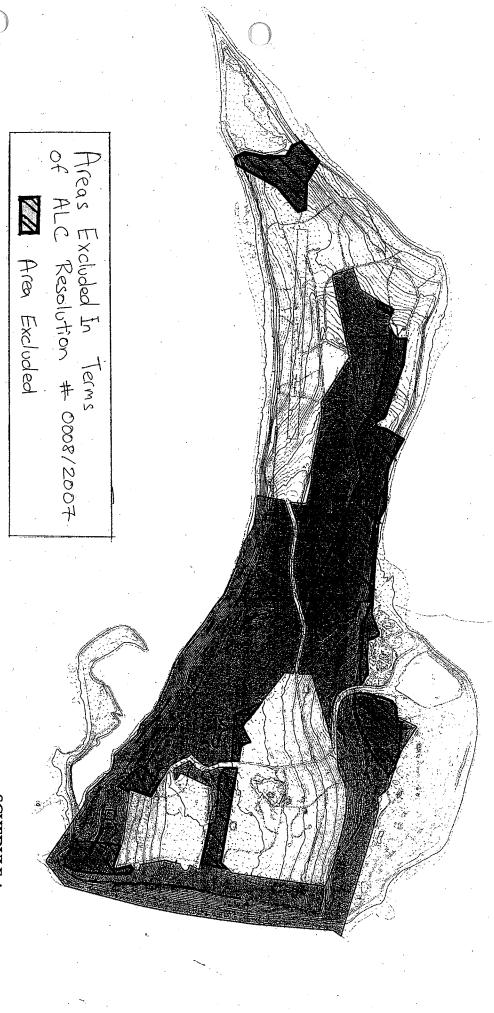

PROVINCIAL ACRICULTURAL LAND COMMISSION

## For Consideration

Application # C - 37002

Applicant:

J.I. Properties Inc.

Proposal:

To exclude 65.7 ha from the Agricultural Land Reserve. The area proposed

for exclusion would be in the northern part of the island. (See inclusion file C-

37001)

Section 4, James Island, Cowichan District;

5. PID: 009-014-519

Section 5, James Island, Cowichan District

Location:

James Island, Capital Regional District

## Site Inspection

In its tour of the island the Commission noted that the agricultural capability of the soils within those areas proposed to be included and excluded were comparable. It noted that significant effort has been made to decontaminate the soils and that an area at the south western corner of the island in the vicinity of the historic farm has been cleared and is being used for the growing of organic vegetables.

## Context

The proposal was weighed against the purposes of the Commission as stipulated in section 6 of the Agricultural Land Commission Act (the "Act"). They are:

- 1. to preserve agricultural land
- 2. to encourage farming on agricultural land in collaboration with other communities of interest, and
- 3. to encourage local governments, first nations, the government and its agents to enable and accommodate farm use of agricultural land and uses compatible with agriculture in their plans, bylaws and policies.

## Discussion

The Commission considered that the changes to the boundaries of the ALR resulting from the inclusion and exclusion applications would generally not have any impact on the agricultural potential of the island. It was pleased to note that site clearing had been undertaken recently in the vicinity of the historic farm and that areas under cultivation had been expanded onto land that was outside the Agricultural Land Reserve. The Commission noted that the proposed adjustments to the reserve boundary took this into account by including this area into the reserve. To this extent the Commission considered that the changes to the boundary would result in a slight benefit to agriculture. The Commission was also pleased to note the company's intention to expand the agricultural activities on the island with a view to marketing organically grown product on Vancouver Island. The Commission was interested in learning more about these intentions and determined that a letter should be requested of the applicants to provide more information with regard to company's existing operations and its plans for the future.
