Re: Application # O-38351 (South Fraser Perimeter Road)
Your File number: 42000-40/11905A

This is a supplement to the Provincial Agricultural Land Commission (the "Commission") letter of December 3, 2008 and the minutes of Resolution #742/2008 detailing the Commission's decision.

One of the conditions requires further clarification. The requirement to "use intake option B to avoid the perception that irrigation water used on crops could be contaminated by overflows from the Annacis Island sewage treatment plant" refers to the choice between "New Eastern Water Intake" option A or B in the vicinity of the Alex Fraser Bridge. It was not intended to suggest that eastern option B be the only intake. The "Improved Western Water Intake at 80th Street" is essential to cranberry operations west of Burns Bog and must form part of the overall agricultural enhancements within the scope of the conditional approval granted by Resolution #742/2008.

Yours truly,

PROVINCIAL AGRICULTURAL LAND COMMISSION
