Sheri,

The application form you need is attached. Just check mark the Subdivision box at the top of the application and fill in the requested info. Below is a simple image of your lot, as well as a 1997 airphoto. Please indicate on the image, or on another image of your property, where you propose to create the new lot line. When done, please send the application to us at the Peace River Regional District in Dawson Creek. The Regional Board reviews the application and if they approve, the application is then reviewed by the Agricultural Land Commission. The fee is \$600 (payable to the Peace River Regional District) and the timeline is usually 2 to 4 months.

By the way, as discussed over the phone, it does appear the road to the west is public right-of-way.

If you have any question or need any assistance, feel free to ask.

GRAVEL PIT.
