

Provincial Agricultural Land Commission ANNUAL REPORT 2015–2016 JUNE 30, 2016

Agricultural Land Commission

133-4940 Canada Way Burnaby, British Columbia V5G 4K6 Tel: 604-660-7000 Fax: 604-660-7033 www.alc.gov.bc.ca

June 30, 2016

Honourable Norm Letnick Minister of Agriculture Parliament Buildings Victoria, BC V8V 1X4

Dear Minister:

I respectfully submit the Annual Report for the Provincial Agricultural Land Commission for the period April 1, 2015 to March 31, 2016.

Yours truly,

PROVINCIAL AGRICULTURAL LAND COMMISSION

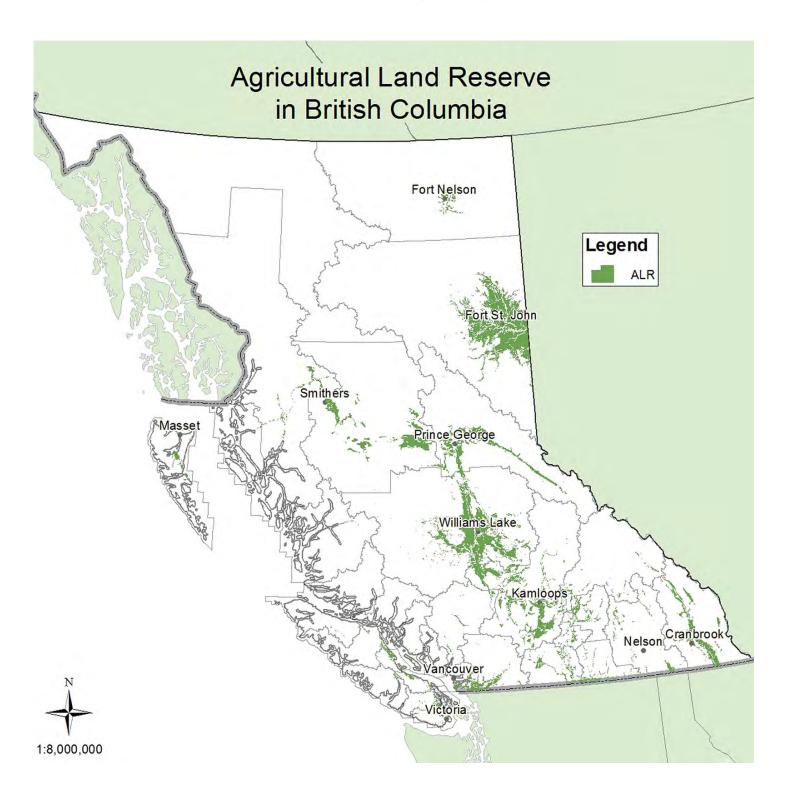

k Leoraro

Frank Leonard, Chair

Published by the Provincial Agricultural Land Commission

#133-4940 Canada Way Burnaby, BC

Frank Leonard

Message from the Chair

I was appointed to Chair of the Agricultural Land Commission in May 2015 and one of my first key tasks was to separate the Chair and Chief Executive Officer positions. We immediately embarked on a recruiting process and in December Kim Grout joined our team as CEO. Kim is highly experienced in local government and is both a Professional Agrologist and a Registered Professional Planner.

Continuing on the theme of change, the Provincial Government passed amended regulations during 2015 following the Ministry of Agriculture's 2014 regulation consultation process. Amendments included adding medical marihuana as a permitted farm use, provisions for cooperative farm associations to carry out processing and retailing, the possibility of operating a brewery, distillery or meadery and the ability to lease portions of a farm parcel for farm purposes. Additional amendments were made related to residential uses in both Zone 1 and 2 of the ALR.

In response to the new regulations, the ALC embarked on a review of its interpretive policies. The Commission substantially completed the review and released 24 new and amended policies in early 2016.

Another substantive change was the switch to an online electronic application submission process. After years of work, the Application Portal was launched in July 2015. The Application Portal provides a streamlined web-based application process for applicants, local governments and the public.

During this year, Commission panels have been working in their regions carrying out onsite visits, deciding applications and meeting with local governments. The Commission Executive Committee met regularly throughout the year to deal with reconsideration applications, to discuss policy issues and matters of provincial importance.

I am pleased to advise that Commissioners and staff of the Commission continue to adapt to best serve the mandate to protect agricultural land and encourage farming in BC.

Mission and Purpose

The mission of the Agricultural Land Commission (ALC) is to preserve agricultural land and encourage and enable farm businesses throughout British Columbia.

The ALC is the provincial agency responsible for administering the Agricultural Land Reserve (ALR), a provincial land use zone designated for agriculture. The purposes of the ALC as set out in Section 6 of the *Agricultural Land Commission Act (ALCA)* are:

- (a) to preserve agricultural land;
- (b) to encourage farming on agricultural land in collaboration with other communities of interest; and
- (c) to encourage local governments, First Nations, the government and its agents to enable and accommodate farm use of agricultural land and uses compatible with agriculture in their plans, bylaws and policies.

The Agricultural Land Commission Act (ALC Act) sets out processes for the inclusion or exclusion of land to and from the ALR and for non-farm use and subdivision of land within the ALR. The *ALC Act* is supported by the Agricultural Land Reserve Use, Subdivision and Procedure Regulation (BC Regulation 171/2002), which provides procedures for applications and defines permitted land uses and subdivisions within the ALR.

The ALC – An Administrative Tribunal

The ALC is an independent quasi-judicial tribunal established by the Provincial government under the *Agricultural Land Commission Act*. As an administrative tribunal, the ALC functions at arm's length from government and exercises its role in a non-partisan and impartial manner.

Appointments to the positions of Chair and Vice Chair are by Orderin-Council. Commission Members are appointed by Ministerial Order. Candidates for appointment are chosen for their knowledge in matters related to agriculture, land use planning, local government and first nations government as set out in section 5(1) of the *ALC Act*.

The ALC performs a wide range of functions, including application adjudication/decision-making, research and analysis, policy research and development, hearing of appeals and compliance and enforcement activities.

The ALC considers applications under the ALC Act on their individual merits.

Portions of the Administrative Tribunal Act apply to the ALC as set out in the Agricultural Land Commission Act.

Commission Office

The business of the Commission is carried out through four functional areas.

- Land Use Planning and Application Processing: Staff research and administer all applications submitted pursuant to the *ALC Act* and regulation. In addition, they also review plans and bylaws of local governments and other agencies to ensure that the ALR is properly identified and that the policies support and encourage the objectives of the *ALC Act* and Regulations.
- **Compliance and Enforcement:** The ALC has a legislative mandate to ensure activities in the ALR are consistent with the *ALC Act*, regulations and orders of the ALC.
- Strategic Planning and Corporate Policy: Staff actively participates with Commissioners in developing strategies, plans and policies to achieve its mandate. Staff also participates in planning and policy initiatives of other ministries, agencies and local governments. Interpretation of the Act and regulations is a regular part of business.
- Administration and Information Systems: The previous three functions are supported by an administration, records management and information systems unit.

The Agricultural Land Commission Act establishes two ALR zones, each comprised of three of the six ALR panel regions.

Zone 1 (South Coast, Island, Okanagan)

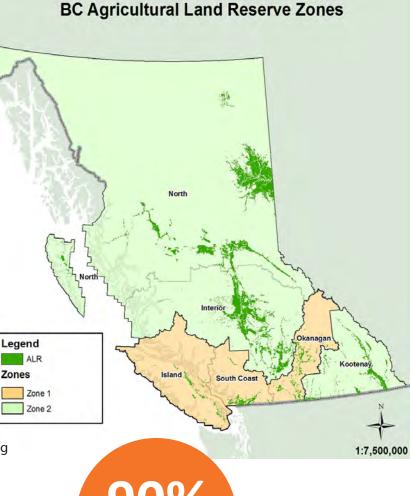

In Zone 1, the purposes in Section 6 of the ALC Act are considered the basis and primary 'filter' for assessing all proposed applications.

- (a) to preserve agricultural land;
- (b) to encourage farming on agricultural land in collaboration with other communities of interest;
- (c) to encourage local governments, first nations, the government and its agents to enable and accommodate farm use of agricultural land and uses compatible with agriculture in their plans, bylaws and policies

Zone 2 (Kootenays, Interior, North)

When exercising a power under the *ALC Act* in relation to land located in Zone 2, the ALC must consider all of the following, in descending order of priority as per Section 4.3.

- (a) the purposes of the commission set out in Section 6 of the Agricultural Land Commission Act;
- (b) economic, cultural and social values;
- (c) regional and community planning objectives;
- (d) other prescribed considerations.

90% of the ALR is in Zone 2

	Region	ALR Area hectares	Percent ALR Area	Percent in Each Zone
Zone 1	Okanagan Island South Coast	224,977 116,207 148,207	5% 2% 3%	10%
Zone 2	Interior Kootenay North	1,528,968 392,557 2,210,783	33% 8% 49%	90%
	Total	4,621,699	100%	

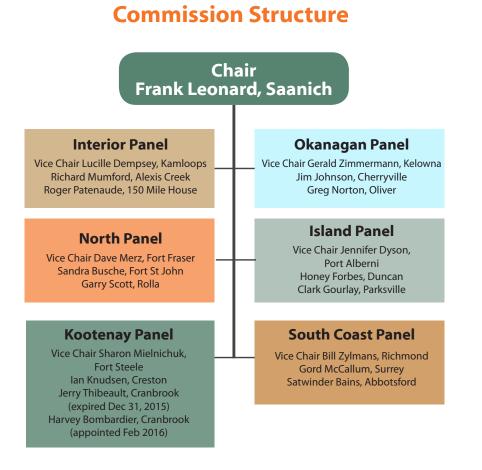

The Commission

The ALC is administered by a government-appointed Commission consisting of a Chair, 6 Vice-Chairs and 12 members who represent six geographic regions that reflect the varied geography and agricultural areas of the province. Commissioners are appointed from the regions and are selected for their relevant backgrounds and expertise.

The work of the ALC is carried out by a body of appointed Commissioners. The appointed Commissioners are the Board of Directors of the ALC which is supported by a small professional staff.

All members form the full Commission which carries out a variety of duties including development of policies governing the Commission, passing resolutions and bylaws regarding the conduct of its affairs, recommend legislative and regulatory changes to government, determining the ALR boundary, approving strategic and business planning initiatives, developing and passing policies, ensuring local government land use planning is compatible with the ALR and considering issues of provincial importance.

The Commission (including Full Commission, Executive Committee and Panels) met 77days in fiscal year 2015/16.

Commission Operations

Regional Panels

The Commission operates with six regional panels that include members from the regions where they are making application decisions. Each panel includes a Vice Chair and two members. Commissioners are appointed by government to carry out the mandate as set out in the *Agricultural Land Commission Act* and the Agricultural Land Reserve Use, Subdivision and Procedure Regulation.

Panels are responsible for:

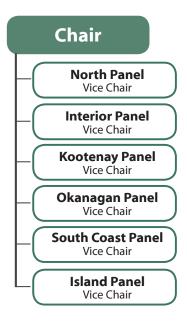

- Decisions on applications;
- Land use plan and bylaw reviews;
- Site visits; and
- Meeting with individuals, local governments, farm organizations and other government representatives.

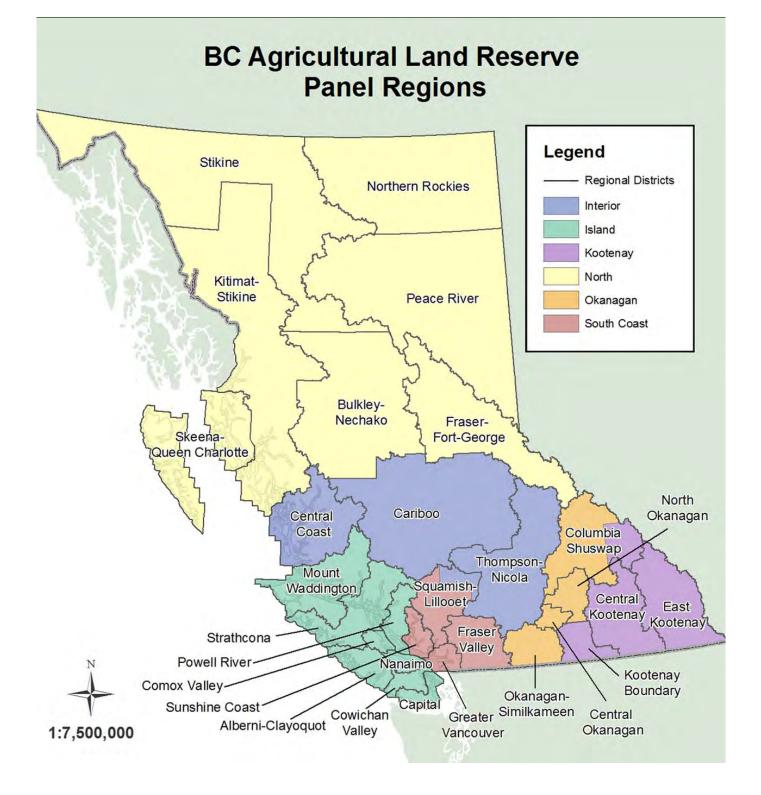

Panels have the powers, duties and functions of the Commission related to applications. Decisions of a panel are final and may be reconsidered as per section 33(1) of the ALCA. The work of panels is directed by the Chair of the Commission.

Executive Committee

The ALC Executive, consisting of the ALC Chair and 6 regional panel Vice Chairs, are responsible for:

- Deciding applications referred by the Chair under section 11.1 of the *ALC Act*
- Deciding applications referred by a regional panel
- Making reconsideration determinations on reconsiderations pursuant to section 33(1) and section 33.1 of the ALC Act; and
- Exercising any other functions delegated by the Commission

REGIONS

Interior Panel

The Interior Panel region extends from the Central Coast (Bella Coola Valley) to the community of Chase at the western end of Shuswap Lakes, encompassing cattle ranching in the Cariboo and Thompson-Nicola Regional Districts. The region is dominated by BC's interior plateau and characterized by dry grasslands and forested parklands. The region includes the Central Coast, Cariboo, Squamish-Lillooet (Lillooet area only) and Thompson-Nicola Regional Districts.

Reconsideration of Decisions

There are two types of reconsiderations that can be initiated under the *Agricultural Land Commission Act*. The first type of reconsideration can be requested by an affected person, or by the Commission, pursuant to section 33(1) of the *ALC Act*. The second type of reconsideration can only be directed by the Chair of the Commission pursuant to section 33.1 of the *ALC Act*.

Section 33(1) of the ALC Act Reconsideration Request

Regardless of whether an application is refused or approved, a person affected by the decision may request the Commission to reconsider its decision. An affected person may make a reconsideration request pursuant to section 33(1) of the *ALC Act*. The affected person may be the applicant or another party.

The purpose of section 33(1) is to allow the Commission to revisit decisions if they were fundamentally flawed due to consideration of incorrect information or, if subsequent to a decision, compelling information is provided that would have significantly contributed to the Commission's understanding of the facts at the time of its original deliberation. Section 33(1) is not intended to provide an applicant or other party with an opportunity to periodically revisit the Commission's decision in perpetuity. Furthermore, a revised proposal does not constitute new information.

The Executive Committee considered 63 reconsideration requests under Section 33(1) of the Act in 2015-16.

Section 33.1 of the ALC Act Reconsideration Directed by the ALC Chair

Regardless of whether an application is refused or approved, the ALC Chair may direct the Executive Committee to reconsider an application decision made by a Panel pursuant to section 33.1 of the ALC Act.

The purpose of section 33.1 is to provide the Chair with oversight to ensure consistency of decision considerations according to the *ALC Act*. The Chair has the authority to direct the Executive Committee to reconsider a decision that the Chair considers may not fulfill the purposes of the Commission set out in section 6, or adequately consider section 4.3 of the *ALC Act*.

Subsequent to a decision being released to the applicant, the Chair is given 60 days to review a decision and direct the Executive Committee to reconsider the application. At the Chair's direction, the Executive Committee must review the application and then confirm, reverse, or vary the decision.

The Executive Committee reconsidered 10 application decisions under Section 33.1 of the Act in 2015-16.

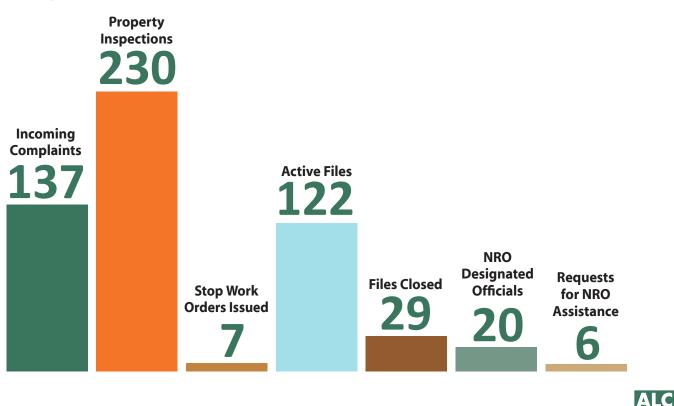

Compliance and Enforcement

The Compliance and Enforcement (C&E) division receives complaint reports of suspected contraventions, carries out site inspections, investigates alleged contraventions and takes enforcement actions when necessary throughout the ALR in British Columbia. The C&E program continues to work collaboratively with its local government partners to address issues pertaining to the ALR within their communities. At the Provincial level, Natural Resource Officers (NRO)who have been designated as officials under the ALC Act for inspectional services are utilized when available to assist our work in the more expansive areas of the province.

April 2015 to March 2016 Activities of the Compliance and Enforcement Program

Hiring during the year increased the team to three C&E Officers and a Coordinator. The team continued to be challenged to meet a demanding workload while training new staff and developing and implementing needed operational standards procedures.

An enhanced component on the ALC's website is dedicated to the topic of compliance and enforcement, providing information about the role of the ALC C&E team. A major improvement of operations was accomplished by adding a feature that allows individuals and other agencies to report misuse of ALR land by submitting a 'Compliance and Enforcement Land Use Activity Form'. The form is intended to provide a means to track incoming complaints of unauthorized activity on ALR land in a consistent manner and greatly improves the reliability of reporting out. Information gathered within the form is then systematically processed to record, validate, prioritize and respond to potentially unlawful activity.

Compliance and Enforcement Statistics 2015-16

Policy & Planning

Policy

Policy work at the Commission is often driven by need to clarify and interpret provincial regulations. In response to the new regulations brought into effect May and June 2015, the ALC embarked on a review of its interpretive policies, most of which had not been reviewed or amended since their adoption in 2003. The Commission released 24 amended and or new policies in early 2016. All ALC policies are available on the ALC's website.

Land Use Planning

Approximately 147 local governments have lands in the Agricultural Land Reserve (ALR); some having large areas of ALR land in their jurisdiction, others have very little. The Agricultural Land Commission (ALC) supports coordinated and collaborative planning with local governments to ensure agricultural lands are protected and available to provide food and other agricultural products for generations to come.

While the ALC is ultimately responsible for the administration of the ALR; local government bylaws, land use plans and farm use policies are essential, complementary components, helping to achieve the objectives of the ALR.

A number of statutory requirements enable local governments and the ALC to collaborate in protecting ALR land.

The ALC Act mandates the ALC to work with local governments to accommodate, support and encourage farming on ALR lands. The ALC Act also requires local governments to ensure its bylaws (growth strategies, official community plans and zoning bylaws, etc.) are consistent with the ALC Act.

The *Local Government Act* requires community plans affecting the ALR be forwarded to the ALC after 1st reading & before public hearing for review and comment to ensure consistency with the *ALC Act*.

Plans and Bylaws Reviewed Summary 2015/16

Delegation Agreements

Delegation is the authorization by the ALC to a local government or an authority to act on its behalf to make use and subdivision decisions in the ALR under section 26 of the *ALC Act*.

Delegation involves a primary statutory body entrusted by the legislature with the exercise of a statutory power, conferring upon another decision maker (the "Delegate") the power to make certain decisions under the statute. As such, the decision of the Delegate is treated as if it were the decision of the original decision maker. To enter into a delegation, a body such as the ALC must have confidence that the proposed delegate is ready, willing and able to carry out the statutory mandate conferred under the enabling statute. This confidence means ensuring the proposed delegate understands and is prepared to ensure complete compliance with the statutory processes and purposes of the *ALC Act*.

Delegates are not authorized to make decisions regarding the boundary of the ALR and are therefore only delegated decision making authority with regard to subdivision and non-farm use within the ALR.

The ALC currently has agreements with the : Oil & Gas Commission for non farm use of ALR land in the Peace River Regional District and Northern Rockies Regional District for oil and gas activities or ancillary activities; and with The Regional District of Fraser - Fort George for subdivision and non-farm use.

The delegation agreement with the Regional District of East Kootnay has expired and is under review for possible amendment and update.

Delegated Agreement Decision Statistics

Regional District of Fraser-Fort George

• In the 2015/16 the Regional District made 6 decisions under the delegated decision-making authority.

Oil and Gas Commission

- In 2015/16 a total of 237 oil and gas activities on ALR lands were exempted from making an application pursuant to the delegation agreement with the Oil and Gas Commission based on reporting and reclamation conditions.
- The OGC received 110 Schedule "B" post reclamation reports where ALR lands were no longer needed for oil and gas use.
- The OGC Commissioner 26 non-farm use application decisions under the ALC Act.
- 1,793 inspections were carried out in 2015/16 by the OGC.

ALR Boundary Review

The purpose of an ALR boundary review is to refine the ALR boundaries in a particular geographic area so that they encompass land that is both capable and suitable for agricultural use.

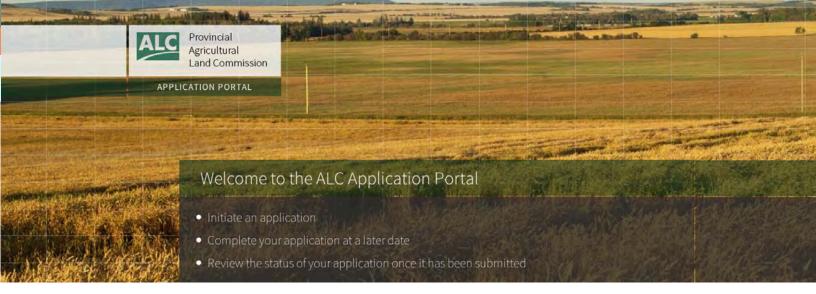

Responsibility for revising the ALR's boundaries rests with the ALC. This role, which the ALC may exercise proactively by way of boundary reviews, is linked directly to the ALC's responsibility to preserve agricultural land. A boundary review is a superior method for "fine-tuning" ALR boundaries than adjudicating hundreds of disparate applications. The ALR will have greater integrity, and fewer applications will be generated, where boundaries are proactively reviewed to assess whether land is, or is not, appropriately designated as ALR land.

Multiple reviews in the Regional District of East Kootenay region of the province have been running concurrently over the past fiscal year in the following electoral areas, as summarized below.

Review Area 2- Electoral Area B: Specific areas of interest for a boundary review were identified by ALC staff in 2014. In May 2015, ALC Commissioners, ALC staff and Ministry of Agriculture staff conducted fieldwork in Electoral Area B by visually assessing the areas of interest. A public hearing was held in Jaffray on November 18, 2015. On February 25, 2016, the Full Commission received the proposal in the context of the information gathered during the public hearing and directed staff to prepare the paper work necessary to complete the initiative (save and accept the Meadowbrook Area around Kimberley which the Commission identified for further review).

Review Area 3 - Electoral Area E: Specific areas of interest for a boundary review were identified by ALC staff in 2014. In May 2015, ALC Commissioners, ALC staff and Ministry of Agriculture staff conducted fieldwork in Electoral Area E by visually assessing the areas of interest. A public hearing was held in Wasa on November 19, 2015. On February 25, 2016, the Full Commission received the proposal in the context of the information gathered during the public hearing and directed staff to prepare the paper work necessary to complete the initiative.

Online Application Portal

The Agricultural Land Commission (ALC) launched its new online application system called the Application Portal on July 15, 2015. The Application Portal provides a streamlined web-based application process for applicants, local governments and the public.

The Application Portal is accessed by applicants and local governments via the ALC website, where links to application templates, sample applications, and user-guide documentation is available for all application types. Applicants are responsible for uploading their applications into the system for local government review and processing prior to the application being received by the ALC, in accordance with the *Agricultural Land Commission Act*.

The first phase of the Application Portal launched in 2015 allows applicants, their agents, and local governments to view the current status of their applications throughout the application process and allows the general public to access application decisions once they are released.

Benefits of the Online Application Portal:

- The system is available to users 24/7 and allows users to submit applications on their own time, check application status and other information relevant to their application;
- Provides for greater processing efficiencies and direct upload of application information into ALC's database;
- Information links are available throughout the online application and on the ALC's website to assist with the entry process;
- Improved quality and detail in the information provided to Commissioners for their consideration;
- Generates automatic email notification regarding application status for local governments, applicants and/ or their agents;

Anyone having technical problems with the Application Portal should contact the ALC directly at 604-868-9279.

Performance Measures

On March 3, 2016, by <u>Ministerial Order M072</u>, the Minister of Agriculture provided the ALC with expectations regarding timelines and performance measures for the processing of applications pursuant to the Agricultural Land Commission Act, as well as , several other initiatives related to improving operational efficiency and effectiveness, that take effect April 1, 2016.

Much of the later part of the 2015-2016 fiscal year was spent reviewing and revision current application processes to ensure the ALC would be able to process applications in accordance with the Order and be able to track and report out on its performance against the targets established by the Order.

The order requires:

- Acknowledgement of applications as complete and or incomplete within 5 business days to receipt for 100% of all applications received by the ALC; and
- Communication of the majority of ALC decisions in writing (electronic or mail), within 60 business days of an application being received (not including the time associated with local government component of the process) for 90% of all completed applications.

For more information on the Order or the processing of applications please refer to the ALC's website.

Archived ALC Cumulative Statistics Table 1974 – March 31, 2012

See report appendix for ALC cumulative inclusion and exclusion statistics by calendar year. This table covers the period of time from ALR designation in 1974 to the end of the first quarter 2012. The figures reflect data from the ALC database. Figures from 1974 to 2008 include final and conditional decided Commission decisions. From 2009 to 2012 figures reflect only final application decisions. ALR area at designation of the reserve was calculated using manual methods (Dot Matrix or electronic planimeter). Estimated net change in these tables is the difference between Column 2 and 3.

Cumulative GIS ALR Change Notations

All figures calculated using GIS data are based on final Completion Date

On occasion missed application boundary changes may be discovered and the ALR boundary is amended accordingly.

GIS figures reflect non-application related ALR boundary changes such as those made by the Provincial government via legislation or regulation. Amendments to the ALR boundary that are not tracked due to their frequency and nature, and/or cadastre changes due to updates and other also ciated.

Non-Application Related Boundary Changes

*Site C Hydro Electric Project – ALR Exclusion by Order in Council 148

Under Section 7 of the Environment and Land Use Act, the Lieutenant Governor in Council has the authority to exclude lands from the Agricultural Land Reserve (ALR) on the recommendation of the Environment and Land Use Committee (ELUC). ELUC approved the recommendation to remove the lands in mid-March 2015.

In April 2015, Order in Council 148 "permanently" excluded 2,775 hectares and "temporarily" excluded an additional 941 hectares of land from the ALR April 8, 2015. The total area excluded from the ALR for Site C development is 3,716 hectares. The excluded area is reflected in the GIS ALR Change table statistics for 2015/16 but is not recorded as a decision of the ALC panel or the Commission.
